

California Child Safety Indicators Dashboard

Child Population

8,852,264

Allegations

433,817

(49.0 per 1,000)

Investigations

290,058

(32.8 per 1,000)

Substantiations

49,463

(5.6 per 1,000)

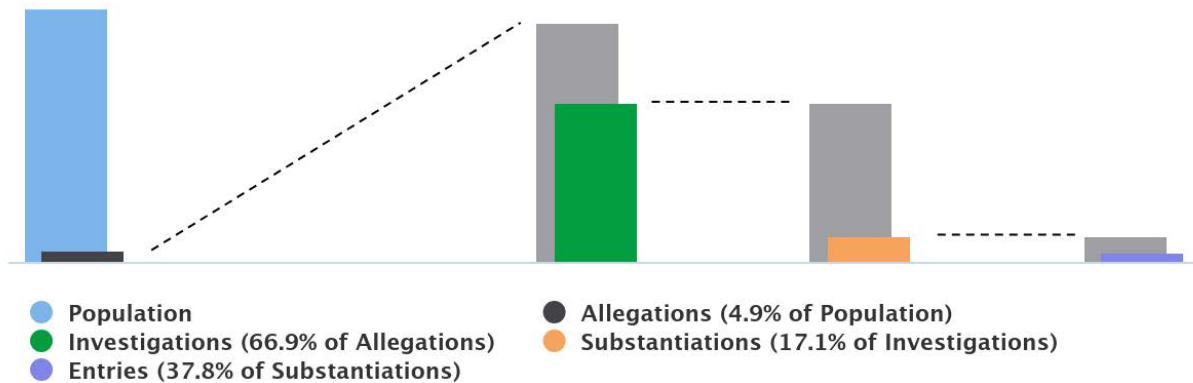

Entries

18,675

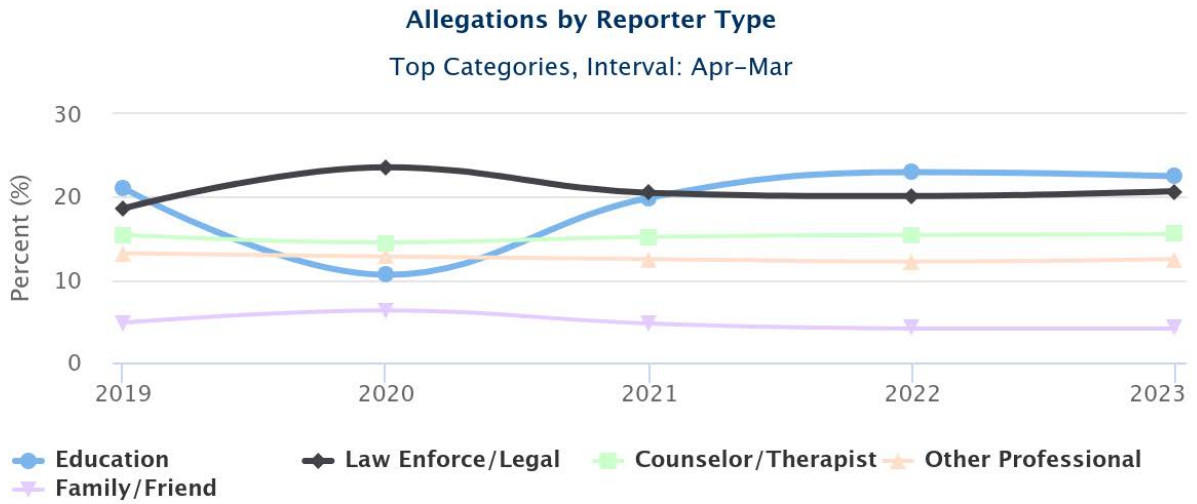

(2.1 per 1,000)

Safety Decisions

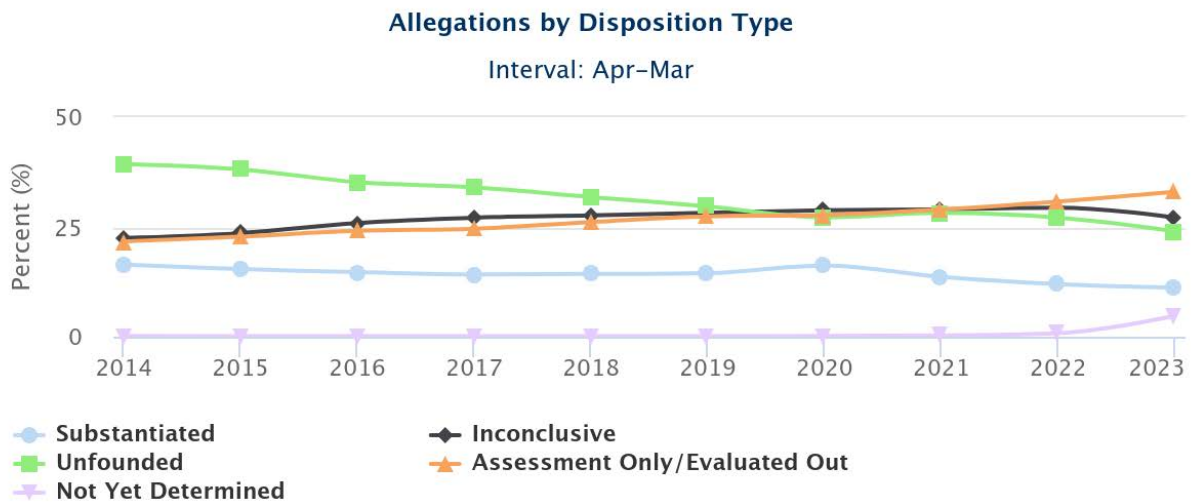

Jan-Dec 2023

The data in this chart are from the same calendar year and provide an overview of the relative frequency of child-welfare safety decisions. Children are counted once at each level of involvement (unduplicated counts). This is not a cohort analysis. A child counted at one level of child-welfare involvement (e.g., Entries) is not necessarily counted at the preceding level (e.g., Substantiations). A child's entry to foster care in early 2023-counted in Jan-Dec 2023 Entries-- might be based on a 2022 substantiation, not included in Jan-Dec 2023 Substantiations.

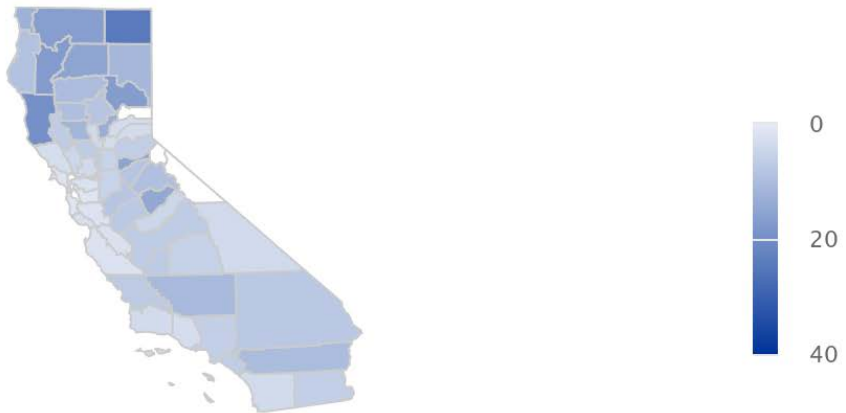

Changes in Education and Legal/Law Enforcement are highlighted. Public health restrictions associated with COVID-19 began approximately March 2020.

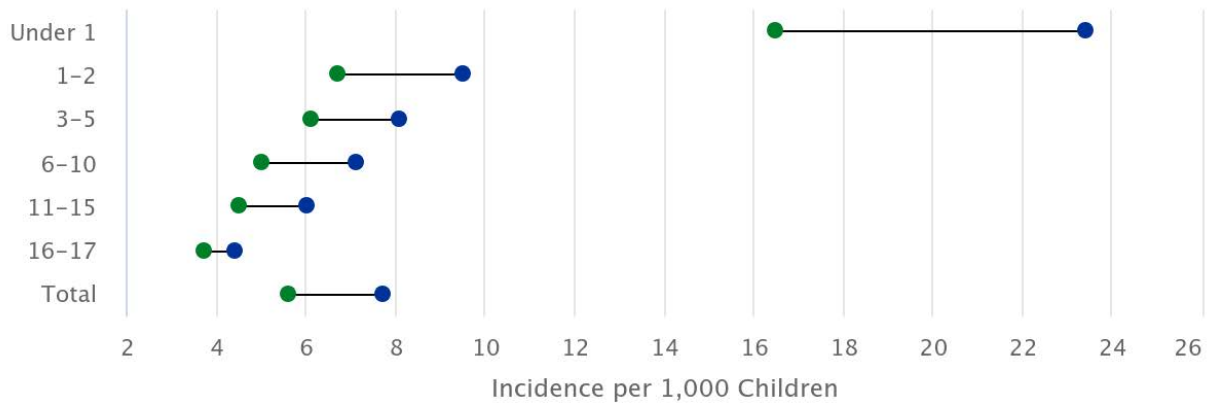

Child Maltreatment Substantiations

Incidence per 1,000 Children, Jan-Dec 2023

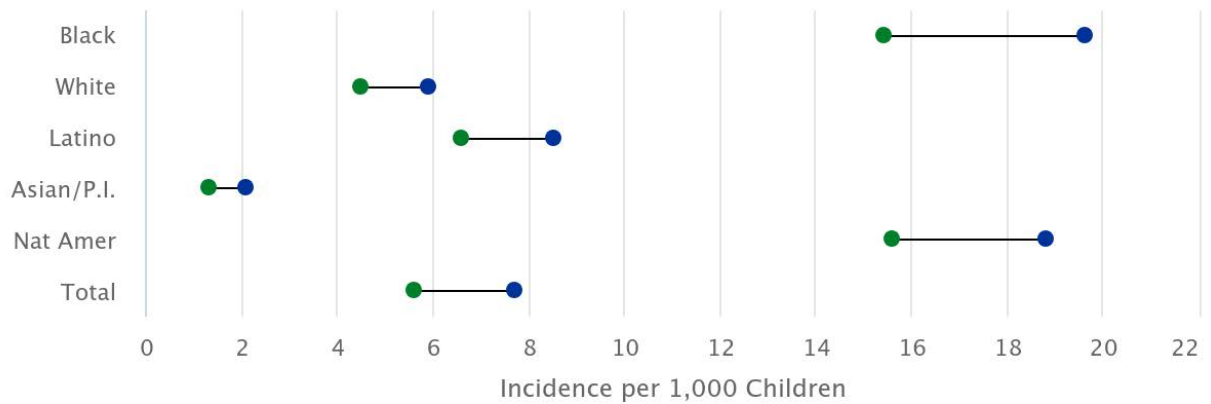

Child Maltreatment Substantiations by Age

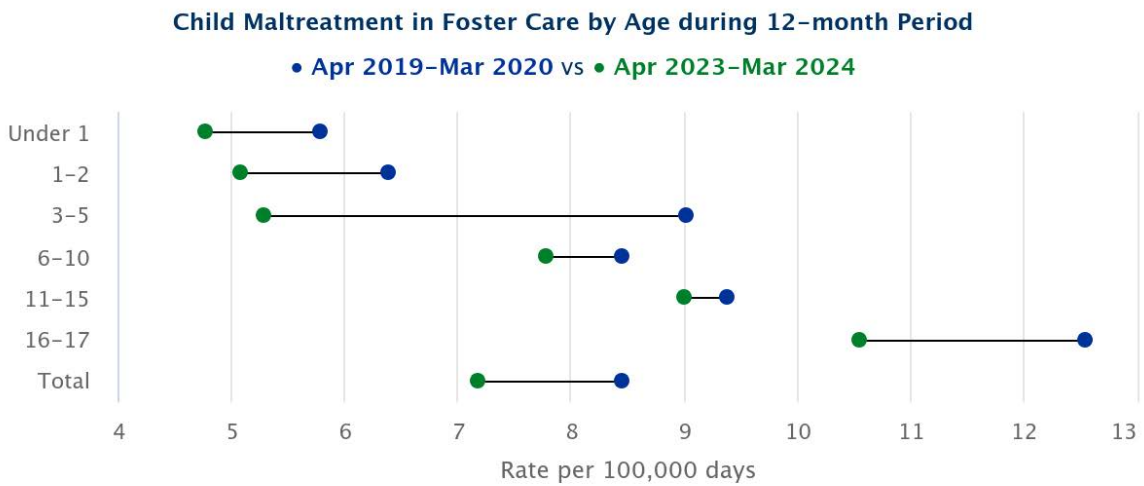

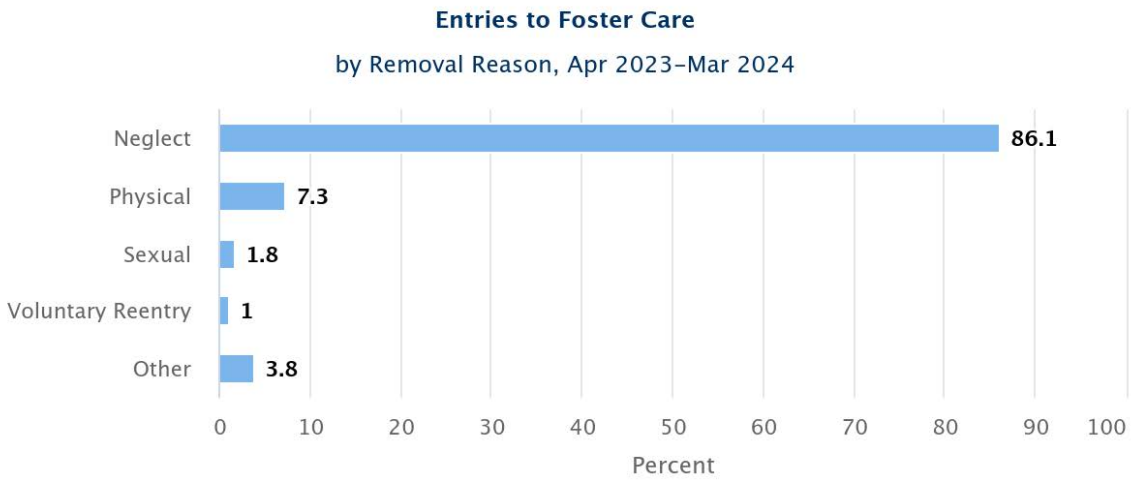

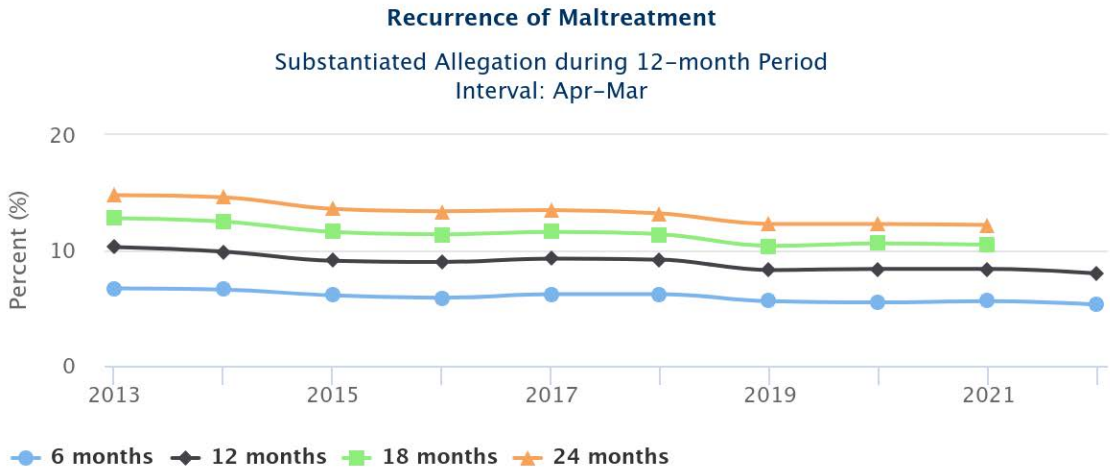

• Jan-Dec 2019 vs • Jan-Dec 2023

Child Maltreatment Substantiations by Ethnicity

• Jan-Dec 2019 vs • Jan-Dec 2023
